INTRODUCTION

Non-Fungible Tokens (NFTs) have become a significant focal point in the digital economy ever since the World Bank warned of a looming wealth chasm, with global inequality projected to reach historic highs by 2030. In fact, as per a report by Globe Newswire, the NFT market grew from \$21.48 billion in 2022 to \$32.89 billion in 2023, marking a compound annual growth rate of 53.1%. This impressive growth not only highlights the appeal of NFTs but also their potential to democratize investments and foster financial inclusion.

However, the current NFT market is not without its challenges. Many potential investors, for instance, are deterred by the complexity of blockchain technology and the limited utility of NFTs. Furthermore, the market often favors established players, leaving many individuals behind struggling with accessibility, and opaque reward structures.

This imbalance calls for an innovative disruptor, a role that Earnet ambitiously embraces. Earnet envisions a future where wealth creation is accessible to all, driven by the power of technology and collaborative intelligence. Our platform is offering a unique collection of 10,000 AI-powered NFTs, each piece a gateway to a network of rewards and community benefits for as little as \$50. But Earnet goes beyond this. We have also developed a unique refer-and-earn program, creating a more inclusive and rewarding investment opportunity unlike any other.

This whitepaper is your map to this exciting adventure. It will take you through our journey, from the initial sale of our NFTs to their listing on OpenSea, and the eventual launch of our own coin. Join us, own an NFT, become an Earner, and be a part of the revolution!

ABOUT EARNET

Earnet is an innovative platform at the forefront of the blockchain revolution, with a focus on AI-powered NFTs and unique referral programs. Our vision is to harness the power of blockchain technology and AI to create a thriving ecosystem that transcends traditional financial boundaries.

Our team, a diverse group of seasoned professionals and Blockchain Enthusiasts, brings together expertise in blockchain technology, AI, and marketing. This collective knowledge has allowed us to create a unique platform that leverages AI-powered NFTs to redefine the blockchain landscape.

At Earnet, we believe in the power of technology to create new opportunities. We have developed a unique AI powered referral program designed to foster a vibrant community of users, all while ensuring the highest standards of security and transparency so that the users purchasing the NFT's are rewarded seamlessly.

Earnet places a strong emphasis on innovation and security, utilizing state-of-the-art technology and rigorous security protocols to protect data and transactions. We offer more than just a platform; we offer a promise – a promise of security, transparency, and a brighter tomorrow. Your journey into the future of blockchain starts here!

THE EARNET NFT COLLECTION

Earnet's NFT collection, a unique fusion of art and technology, comprises 10,000 AI-powered NFTs, each with its own level of rarity. Each NFT represents a stake in the Earnet ecosystem, and their stunning visuals, created by AI, ensure their uniqueness and collectible value. The idea behind NFT of earnet is an AI powered robot who is a part of Earnet community and is earning seamlessly.

Pricing and Accessibility

To foster a vibrant and inclusive community, we set an approachable starting point of \$50 for the base entry level. This low entry point ensures that individuals from all walks of life can own an NFT and participate in the digital art revolution without breaking the bank.

Purchasing an Earnet NFT is as easy as a few clicks, and it can be done directly from our platform

Owning an Earnet NFT is more than just having a digital asset. It opens up a world of benefits and earning potential that you won't find elsewhere.

Earning Potential

One of most exciting aspects of owning an Earnet NFT is the access it grants you to multiple income streams. As soon as a user purchases NFT, they are placed under an AI based refer and earn which is an innovative scheme, including Level Income, Matrix Income, and Auto Pool Income, through which Earnet NFT holders can earn passive income.

Note that the rarity of your NFT plays a significant role in determining the potential earnings, with rarer NFTs offering greater income potential.

Future Airdrops of the Earnet Coin

As an NFT owner, you are eligible for future airdrops of the Earnet coin. Airdrops are a method of distributing new tokens to the existing holders of a particular blockchain currency. So, when Earnet launches its own coin, you, as an NFT holder, will receive some of these new coins directly into your wallet.

Governance Rights and Community Membership

Your ownership of an Earnet NFT grants you a unique privilege – a say in the future of Earnet. You can participate in platform decisions and help shape the direction of our community as a stake holder. You also become part of an exclusive community of "Earners" with access to private forums, events, and mentorship programs. This community is more than just a network, it is a support system where strategies are shared, and collaborations formed.

Liquidity and Value

Earnet NFTs are not just digital art; they are assets with real value. While our platform remains the exclusive marketplace for our unique NFTs, after all NFTs are sold, they will be listed on OpenSea, providing our investors with a secondary market for their assets. This liquidity empowers you to trade, sell, or hold your NFTs as you see fit, giving you control over your financial future. After launching on OpenSea, the new users who wish to be a part of the community, has to buy NFT from previous users and that too from OpenSea itself. This will ensure the liquidity and incremental pricing of our NFT.

EARNET NFT PRE-SALE

To reward early supporters of Earnet, we are excited to introduce a structured pre-sale of our NFT collection. This pre-sale offers the opportunity to become part of the Earnet community at a preferential rate, with a limited number of NFTs available in each round.

**NFT
PRE-
SALE**

Pre-sale Rounds

Round 1

**Up to 3,000
NFTs at \$50
each**

Early-bird access
and special
rewards for the
first adopters.

Round 2

**Up to 5,000
NFTs at \$60
each.**

Continued access
at a privileged
rate.

Round 3

**Up to 7,000
NFTs at \$70
each.**

Broadening the
community reach.

Round 4

**Up to 10,000
NFTs at \$80
each.**

Final chance to be
part of the pre-
sale phase.

Each round will transition to the next upon the sell-out of the current round or after a set period, ensuring a fair and structured distribution.

EARNET'S AI-POWERED REFER-AND-EARN PROGRAM

WHITEPAPER

PIONEERING THE FUTURE OF BLOCKCHAIN WITH
AI-POWERED NFTS AND UNIQUE REFERRAL PROGRAMS

In a market teeming with countless NFT projects, Earnet distinguishes itself not just as another NFT company, but as a trailblazer in wealth creation. Our unique AI powered refer-and-earn program isn't just another incentive; it's a sophisticated, AI-driven ecosystem designed to ensure that every participant, active or passive, can make their NFT investment not just rewarding, but potentially cost-free. With Earnet, you're not just buying an NFT; you're investing in a community where each member's success contributes to the collective prosperity.

• EARNET'S AI-POWERED
REFER-AND-EARN PROGRAM

Welcome to the Future of Referral Programs

At Earnet, we believe that your journey towards financial prosperity should be supported by cutting-edge technology. Our refer-and-earn program is your gateway to a new realm of possibilities, seamlessly blending the traditional referral system with AI-driven placements to create a comprehensive, inclusive earning environment.

How the Program Transforms Your Experience

Level Income (37%):

The traditional referral model is enhanced in our program. It operates across nine levels, rewarding you with a percentage of the purchase price for each new member you introduce to Earnet. From 15% for direct referrals in Level 1 to 1% in Levels 5 to 9, your rewards grow as your network expands. This tiered system ensures that your efforts are acknowledged and rewarded, creating a cascade of benefits that flow through your referral network. Below is an example of referral income representation if you refer 50 users to buy Earnet NFT and they refer 3 members Each.

Levels	No. of members	Total Investment	Level %	Income
Level 1	50	\$ 2500	15%	\$ 375
Level 2	150	\$ 7500	10%	\$ 750
Level 3	450	\$ 22500	5%	\$ 1125
Level 4	1350	\$ 67500	2%	\$ 1350
Level 5	4050	\$ 202500	1%	\$ 2025
Level 6	12150	\$ 607500	1%	\$ 6075
Level 7	36450	\$ 1822500	1%	\$ 18225
Level 8	109350	\$ 5467500	1%	\$ 54675
Level 9	328050	\$ 16402500	1%	\$ 164025
Total Income				\$ 248625

3x9 Matrix Income (27%):

Our structured 3x9 matrix income model places you within a dynamic network where each level is thrice the size of the previous, culminating in a vast community of participants. Your position in this matrix isn't just a spot; it's a node in a thriving ecosystem, with each club in the nine levels receiving a proportionate share of the total income, creating a balanced, robust income distribution. If you refer users to purchase the NFT, they will be placed under you, but even if you do not refer anyone, still our AI powered engine will automatically place new users in your matrix. 27% of the total NFT investment from your club members is divided among 9 Clubs (3% of total investment in each club) ensuring rewards you deserve.

You get 3% in every level from total NFT investment from members divided in 40 days. As soon as you move to the next club, the previous club will stop and fresh income will start getting distributed in same manner.

Below chart is for referral income representation.

Clubs	No. of members	Total Investment	Income
Club 1	3	\$ 150	\$ 4.5
Club 2	9	\$ 450	\$ 13.5
Club 3	27	\$ 1350	\$ 40.5
Club 4	81	\$ 4050	\$ 121.5
Club 5	243	\$ 12150	\$ 364.5
Club 6	729	\$ 36450	\$ 1093.5
Club 7	2187	\$ 109350	\$ 3280.5
Club 8	6561	\$ 328050	\$ 9841.5
Club 9	19683	\$ 984150	\$ 29524.5
Total Income			\$ 44284.5

Auto Pool Income (36%):

Here's where Earnet's innovative spirit shines. Our Auto Pool Income scheme is a testament to our commitment to inclusivity. Even if you're not inclined towards active referrals, that means even if you do not refer anyone to buy NFT, our AI-driven system ensures you're not left behind. Participants are automatically placed within the 3x9 matrix, allowing everyone to benefit from the community's growth. The AI's strategic placement ensures that each member's potential to earn is maximized, making your investment in Earnet NFTs not just a purchase, but a step towards financial empowerment.

36% of the total NFT investment from your club members is divided among 9 levels (4% of total investment in each club) ensuring rewards you deserve.

You get 4% in every level from total NFT investment from members instantly.

Below chart is for referral income representation.

Levels	No. of members	Total Investment	Income
Level 1	3	\$ 150	\$ 6
Level 2	9	\$ 150	\$ 18
Level 3	27	\$ 1350	\$ 54
Level 4	81	\$ 4050	\$ 162
Level 5	243	\$ 12150	\$ 486
Level 6	729	\$ 36450	\$ 1458
Level 7	2187	\$ 109350	\$ 4374
Level 8	6561	\$ 328050	\$ 13122
Level 9	19683	\$ 984150	\$ 39366
Total Income			\$ 59046

ROADMAP

NFT Sale

The first significant milestone on Earnet's roadmap is the sale of our unique NFT collection directly on our platform. These NFTs, crafted using cutting-edge AI algorithms, represent one-of-a-kind digital assets that are poised to revolutionize the digital art market. We have a limited supply of 10,000 NFT's to be sold. Earnet will host the NFT sale directly on our platform, ensuring accessibility to our investors.

Listing on OpenSea

Once all NFTs are successfully sold, we will proceed to list them on OpenSea with a view towards opening up a secondary market for our NFTs, thereby offering investors opportunities for trading and potential profit generation.

After launching on OpenSea, the new users who wish to be a part of the community, has to buy NFT from previous users and that too from OpenSea itself. This will ensure the liquidity and incremental pricing of our NFT.

Launch of Own Coin

The subsequent major step in our roadmap involves the introduction of our proprietary cryptocurrency coin.

The process of minting and listing our coin on reputable no less than three cryptocurrency exchanges will be executed meticulously, adhering to established regulatory guidelines and industry best practices. This signifies our commitment to legal compliance and the creation of a transparent and secure cryptocurrency ecosystem. Our coin will play a pivotal role in facilitating seamless transactions on the Earnet platform and will also serve as a reward mechanism for our valued investors.

Decentralized Exchange Launch

The upcoming part of our roadmap includes launching of our own Decentralized Exchange platform which will be announced separately. Our Dex exchange will involve trading of top crypto coins, peer to peer in a non-custodial manner without the need of an intermediary to facilitate transfer and custody of funds. Our DEX platform will offer complete transparency where users can connect their wallet and trade.

CONCLUSION

The revolution in wealth creation is upon us, fueled by AI-powered NFTs and a supportive network of like-minded individuals. Earnet is that platform, a portal to your financial future, a launchpad for your ambitions, and a community where success multiplies with each connection.

Are you:

A tech visionary eager to spearhead the future of NFTs and transform the financial landscape? Join the waitlist to be among the inaugural pioneers of Earnet, shaping the platform in collaboration with our dedicated team.

A passive income enthusiast looking to secure consistent earnings and unlock financial independence? Reserve your early-bird NFT with exclusive pre-sale benefits and watch your stable income stream flourish.

An artistic innovator with a passion for expressing your creativity and making your mark on the world? Unleash your talent in a community where art intersects with technology. Join the Earnet collective, where your vision contributes to the construction of a thriving ecosystem of possibilities. No matter your aspirations, Earnet has a place for you. We provide support, knowledge, and a network of fellow Earnet entrepreneurs ready to collaborate, share strategies, and celebrate each other's triumphs.

So, take the first step. Claim your NFT, join the community, and embark on your Earning adventure.
